Identification Requirements

All **athletes**, **coaches, owners** and **non-coaching representatives** listed on a team's official Worlds roster must present a government-issued photo ID to enter the warm-up room.
Exception: Photo IDs are not required for Exceptional Athletes.

Acceptable Forms of Photo ID

- Driver's license
- State ID
- Military ID
- Passport
- Visa

ID Verification at Worlds

Before entering the warm-up room, a USASF official will verify each participant's identity against the official Worlds roster. To expedite the process:

- Have athletes line up in roster order.
- Have all participants ready to present their government-issued photo IDs.
  Exception: Photo IDs are not required for Exceptional Athletes.

NOTE: If an athlete arrives without proper ID, a Worlds official will photograph the athlete and the team may warm up and compete as scheduled. Proper identification must be provided within one hour after the performance or the team will be disqualified.

Plan Ahead

State IDs are available through local DMV offices, and minimum age requirements vary by state. Obtaining a state ID or passport may take longer than expected, sometimes six weeks or more. Clubs and their representatives are responsible for ensuring athletes obtain acceptable identification in time for warm-up room access and competition.
